[Hitachi Power Solutions Co. Ltd](#)

Description

Hitachi Power Solutions develops and provides our original Scanning Acoustic Tomographs and their transducers. Our products' lineup consists of FineSAT series, FS-Line series, Wafer-Line and ES-5100. The FineSAT series can be utilized for non-destructive testing of wide variety of electronic devices and materials not only in laboratories but also in mass-production lines. FS-Line series are optimum for large scale mechanical parts and materials such as sputtering targets. The Wafer-Line is an automated system for bonded Si wafers. ES-5100 can realize extremely high-speed testing on combination with phased array transducers. We can also provide optimum transducers from our wide variety of transducers to customer's samples.
