Material Analysis Technology Inc.

Description

Materials Analysis Technology Inc. (MA-tek) is a world-class laboratory providing services in materials analysis (MA). In line with the exponential rate of the business's development, MA-tek has successfully expanded to be equipped with additional Failure Analysis (FA) and Reliability Testing (RT) services. These integrations allow for MA-tek to provide superior service for its customers in various industries. MA-tek currently has 7 laboratories and 1 sales office set up around the world, providing around-the-clock assistance in logistic support and technical services.
